Birzeit University (Palestine) http://www.birzeit.edu/ OPAC delle biblioteche di ateneo disponibile via Web. Birzeit University Library offers full text journals by subscription in a number of DataBases, Pagine web delle biblioteche ben strutturate e ricche.	sì	sì	sì Suggestions: I think a policy is needed here to keep track of things	sì	sì	Diana Sayej-Naser Library Director DSAYEJ@birzeit.edu we would like to inform you that we are more than happy to work with you for the development of libraries in the Mediterranean Region. *The major points and questions are:* 1-- Project: More information need to be given in terms of specific goals and objectives, duration, phases, and sustainability. 2-- Who would be the potential institutions? Universities and/or Documentation & Research Centers? 3-- What type of documents

						needed for digitization? In which language? Who decides that? Are you interested more in research? 4-- Are there policies and guidelines to govern the work that we can get a copy of? 5-- What about the copyright laws? who will follow them? 6-- What is required from the member institutions? 7-- Would there be funds for each institution to implement the work? and for how long? 8-- As far as we all know, digitization is not an easy task. Technically speaking, it requires a highly skilled and well trained team to do the work starting from scanning to transfering data to PDF format or metadata. dedicated human resources a needed. I understand that training sessions will be held, but what about the follow up? 9-- In terms of document delivery and interlibrary loan, how would it be done? there be certain fees? charges? or for free? In Palestine for example we have such a service. Negotiations are still goin on among all universities.
Ecole normale supériure d'enseignement technique D'Oran (Algérie) http://www.enset-oran.dz/ La Bibliothèque de l'ENSET, dans un souci d'amélioration des prestations et d'efficacité dans la recherche documentaire a lancé un logiciel d'informatisation du Fonds Documentaire. Au stade actuel, l'informatisation de l'inventaire du fonds documentaire et des opérations de prêt est entièrement achevée et fonctionnelle. D'autres programmes informatiques sont en cours de réalisation	sì	sì Suggestions: POUR POUVOIR DIFFUSER NOS RECHERCHE.	sì, molto	sì	sì	Saliha Mettai Responsable de la Bibliothèque enset_bibliotheque@yahoo.fr

                       Tunisia 1

Il questionario ci ha permesso di stabilire un discreto numero di contatti, anche se le aspettative erano più ampie. Le risposte sono generalmente incoraggianti: tutte e cinque le tematiche sottoposte a indagine hanno riscosso un buon gradimento. Alcuni dei rispondenti hanno anche aggiunto utili osservazioni, suggerimenti, richieste di approfondimento, a segnalare un certo interesse per il progetto e una reale disponibilità a cooperare con il futuro Centro Servizi.

Dalle risposte e dalla valutazione dei siti emergono, ovviamente, situazioni diversificate quanto a disponibilità di risorse e a investimenti sulle reti e sul digitale. Alcuni degli atenei interpellati stanno muovendo soltanto i primi passi. Da segnalare un dato interessante: dalle realtà che sembrerebbero più avanzate (Cipro, Palestina) arrivano i segnali più concreti e confortanti di attenzione per la nostra iniziativa.
